metnology

WeEz Solutions LLC d.b.a. Metnology

Capability Statement

Managed IT · Cloud · Cybersecurity · DevOps & Automation

Metnology is a minority-owned IT services firm delivering managed IT, cloud, cybersecurity and DevOps engineering to commercial, healthcare and public-sector organizations. Our engineers bring enterprise backgrounds in virtualization, security and platform automation, and we work as a full-service provider or as embedded staff alongside your team.

CORE COMPETENCIES

Cloud & Collaboration

- Microsoft 365 and Azure administration
- Email and cloud migration; virtualization

Managed IT & Endpoint Operations

- Device provisioning, monitoring and patching
- Server administration; remote and onsite support

Cybersecurity & Business Resilience

- Endpoint protection; identity and access management
- Vulnerability remediation
- Managed backup, restore testing, disaster recovery and continuity

Infrastructure & Professional Services

- Network architecture and infrastructure modernization
- Technology roadmaps and procurement
- Staff augmentation and project delivery

DevOps & Automation

- Configuration management and drift detection at scale (Ansible, Puppet, Chef)
- CI/CD pipeline engineering (Jenkins, GitHub Actions, GitLab CI)
- Infrastructure as Code and cloud provisioning (Terraform; AWS, Azure, GCP)
- Container and Kubernetes platform services
- Release automation, blue/green deployment and tested rollback
- Automated patching and OS lifecycle management
- Compliance-as-code for regulated environments
- Observability and monitoring (Prometheus, Grafana, Splunk, New Relic)
- High availability and disaster recovery engineering
- Cloud readiness and hybrid cloud migration
- DevOps assessments and fractional platform leadership

DIFFERENTIATORS

- One partner across managed IT, cloud, security and DevOps
- Leadership from Warner Bros. Discovery, Wells Fargo and Mastercard
- Team experience automating 100,000+ server regulated environments
- Flexible delivery: full-service, project-based or embedded engineers

CORPORATE DATA

UEI	LHXED8SBYM76
CAGE	8ZQ72
GSA MAS	47QTCA24D006P
NAICS	541519 · 541512 · 541513 · 541511 · 423430
Status	Minority-owned small business; NMSDC-certified MBE

PAST PERFORMANCE

Trulieve — enterprise IT support since 2018: endpoint, server and collaboration tools management

JE Technology Solutions (Apopka, FL) — cybersecurity, endpoint management and infrastructure modernization, plus Microsoft 365 administration, monthly server patching and Azure/Terraform Cloud identity setup

Saia LTL Freight — Microsoft 365 and collaboration services (Microsoft Teams), delivered as SOW-based projects

Thomson Police Department (GA) · **Elysian Gardens**
